

True Wireless Stereo 10W multi-input fabric speaker

SKU: TEJZSPEAKFABRICBTB

Speaker with strap, ideal for listening to music from any source and making hands-free calls

CHOOSE THE SOURCE YOU WANT TO LISTEN TO MUSIC FROM

The **10W fabric multi-input speaker** is the perfect accessory for listening to music **wirelessly** from an enabled device such as a smartphone, a **device with a USB or AUX port**, or a **TF memory card (up to 32GB)**.

The **1200mAh battery** provides a **listening time of up to 4 hours**. When out of power, connect to a power source with the **cable provided: in 2 hours the battery will be back up to 100%**.

TWS TECHNOLOGY FOR STABLE WIRELESS CONNECTION, EVEN WITH OTHER SPEAKERS

With **True Wireless Stereo technology** you can **pair it with another speaker of the same model**. This way, you can listen to your favourite playlist on two speakers creating a party effect or watch a movie in an extremely immersive way like at the cinema.

The **10 metre range** ensures a stable connection even if the speakers are far away from the device.

MAKE HANDS-FREE CALLS WITH THE INTEGRATED MICROPHONE

The built-in microphone is very convenient if you want to make calls or group calls without having to use your device's speakers which often distort the audio and don't produce a powerful enough sound.

THE KEYS ALLOW TOTAL CONTROL OVER MUSIC AND CALLS

If you want to **adjust the volume**, **answer/end calls**, **play/pause your songs** or **activate the voice assistant** and don't have your smartphone, tablet or MP3 player to hand, simply use the handy buttons on the speaker.

THE FABRIC COVER AND STRAP MAKE IT PRACTICAL AND STYLISH

The 10W fabric multi-input speaker comes with a **practical strap** ideal for **attaching it to a backpack or bag** and carrying it easily. The fabric covering also makes it **suitable for any home environment**.

KEY FEATURES:

- power output: 10W
- Suitable for playing music from TF cards (up to 32 GB), devices with USB or AUX jacks, and wireless-enabled devices
- True Wireless Stereo technology lets you connect to another speaker of the same model
