

## Desk stand with 10W wireless charging

SKU: TEWIRDESKQI10W

### Attach your Qi compatible smartphone to this accessory for fast wireless recharging

#### FAST AND EFFICIENT WIRELESS CHARGING

This **10W Wireless desktop charging stand** lets you recharge your smartphone by simply resting it on it. For wireless recharging, you only need to connect the charging stand to an energy source with the included **USB-C cable**.

When connected to a Quick Charge power supply, this accessory **delivers 10W power**. It can **fully recharge** an Apple, Samsung, Xiaomi, Huawei or other **smartphone in 60 minutes**.\*

#### SAFE AND CERTIFIED RECHARGING

Wireless charging is designed for **Qi-compatible devices** as certified by the Wireless Power Consortium. Qi is a worldwide standard for chargers that safely and wirelessly recharge mobile devices.

This 10W Wireless desktop charging stand features **ADS (Automatic Detection System) technology** that recognises the power your smartphone needs. So, it's ideal for devices with either **5W or 7.5W power**, such as compatible wireless-charging iPhones. This avoids overheating that could damage your device. Your phone battery will be recharge in a highly secure way, improving its lifetime.

#### COMFORTABLE AND FUNCTIONAL

This wireless charger is perfect for daily use and **in any environment**. Whether it's in the living room, kitchen or office, its compact and modern design affords wide adaptability. The **stand function** allows you to use this accessory for seeing photos and video tutorials on your phone or comfortably participating in video calls. At the same time, it keeps the device charged.

\*Charging times are approximate and depend on the battery of the device being charged.
